Welcome Yuzhan Jiang from SI 664 001 WN 2022

Your score of 100.0% has been saved.

Your current grade on this assignment is: 83.3%

You cannot retry this quiz for 10 minutes

1. ✓ What is the purpose of the following JQuery ready() call?

```
$(document).ready(function(){  
    window.console && console.log('Hello JQuery..');  
});
```

- ☐ Ascertain if the document is ready to load
- ☐ Enable the retrieval of data in the JSON format
- ☒ Register a function that will be called when the HTML document is completely loaded
- ☐ Clear the browser window so drawing can start in the upper left hand corner

2. ✓ What portion of the DOM (Document Object Model) will be affected by the following JQuery statement:

```
$('#para').css('background-color', 'red');
```

- ☐ All elements in the DOM
- ☐ All tags with a class attribute of "para"
- ☒ A tag with an id attribute of "para"
- ☐ A tag with a class attribute of "para"

3. ✓ What does the following JQuery code do?

```
$('#spinner').toggle();
```

- ☐ Call the global JavaScript function toggle with the spinner tag as its parameter

选择语言 | ▼

○ Indicate that page loading has completed

Done

☒ Hide or show the contents of a tag with the id attribute of "spinner"

○ Switch the spinner.gif with the image spinner_toggle.gif

4. ✓ What will the following JQuery code select from the given HTML?

```
<p>two</p>
<input type="text" name="one" id="p" value="three" title="four">
<input type="text" name="five" class="p" value="p">
$('#p').find('input[name="one"]').val();
```

○ two

○ one

○ four

☒ three

○ five

5. ✓ What would the following JavaScript print out?

```
data = {'one':'two', 'three': 4,
        'five' : [ 'six', 'seven' ],
        'eight' : { 'nine' : 10, 'ten' : 11 }
};
alert(data.eight.nine);
```

○ six

○ 11

○ seven

☒ 10

○ nine

6. ✓ Which of the following JQuery statements will hide spinner.gif in this HTML?

```
<div id="chatcontent">
  
</div>
```

○ \$(".chatcontent").off();

○ \$("img>spinner.gif").hide();

选择语言 | ▼

Done

- ☐ \$("spinner.gif").suppress();
- ☒ \$("#chatcontent").hide();
- ☐ \$("spinner.gif").alt = -1;
