Done

Welcome Yuzhan Jiang from SI 664 001 WN 2022

Create, Read, Update, and Delete (CRUD)

Exam Specification ↗

In order for the autograder to exercise your assignment, you must create a user account with the credentials below. It is best if this is not a "superuser" - instead navigating to the **/admin** path in your application, logging in with your superuser account and creating the new account in the admin UI. By default the new user will not have staff or superuser permissions.

```
Account: dj4e_user
Password: Meow_c64004_42
```

You can use any email address you like.

You should edit or add a **meta** tag in your **<head>** area of each page you generate as shown below:

```
<meta name="dj4e" content="fc64004dee3fa6dec3cf0a018f64f1cd">
```

Re-run this test
